Attribution

When a work is marked by this license you may use the work in any manner, so long as you give the creator credit for the work. This is the most accommodating of all the C.C. licenses.

Attribution-ShareAlike

This license lets users remix, tweak, and build upon work even for commercial purposes, as long as credit is given to the author, and licensed under the identical terms. This license is often compared to "copyleft" free and open source software licenses. All new works must carry the same license, so any derivatives will also allow commercial use.

Attribution-NoDerivs

This license allows for redistribution, commercial and non-commercial, as long as it is passed along unchanged and in whole, with credit to the original author.

Attribution-NonCommercial

This license lets others remix, tweak, and build upon work non-commercially, and although new works must also acknowledge the author and be non-commercial, do not have to license their derivative works on the same terms.

Attribution-NonCommercial-ShareAlike

This license lets others remix, tweak, and build upon work non-commercially, as long as they credit the author, and license their new creations under the identical terms.

Attribution-NonCommercial-NoDerivs

This license is the most restrictive of the six main licenses, only allowing others to download works and share them with others as long as they credit the author, but they cannot change them in any way or use them commercially.
