

Log in to Wixie with your teacher username and password.

Click the Students tab.

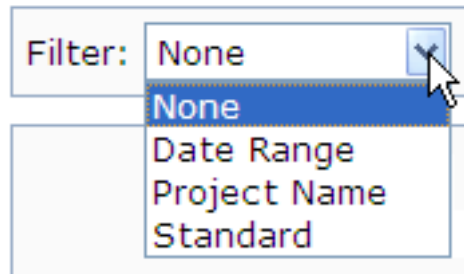

Click the student whose projects you want to view.

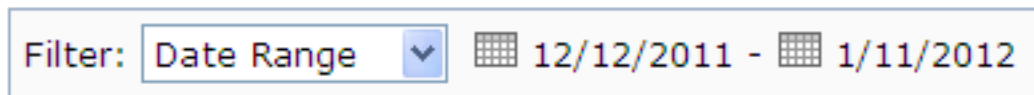

You will see all of the projects created by the student.

Select the filter option from the drop down menu above the project window.

Select Date Range to see the projects created within the last calendar month.

To change the date range, simply click each date and choose new dates from the calendars that appear.

Select Project Name to see a field where you can type a word from the title of the project you want to view.

Select Standard to switch to the standards grid for that student.

Click the Projects box for the standard topic you would like to view.
